HORAS DE VUELO MÍNIMAS

- Make at least 1 short range flight (Max. 1:30h) in the first month from the day of your discharge
- Every flight should be flown using IVAO or VATSIM.
- Every flight should be tracked using smartCARS
- A total of 3 months of inactivity per pilot is allowed

FLOTA

- We have the real fleet of *Swiftair SA*. (733/734 – E120 – ATR – B75F)
- In order to operate our B757, the minimum rank of “First Official” must be obtained.
- In case of an accident, pilots should report it to the CEO.
- The max. landing rate allowed is -850ft/min.

RUTAS

- All of our routes are real with respect to Swift Air SA. Our aim is to simulate as realistically as possible.
- All published routes are called regular routes, while non-standard routes are called charter routes.
- Any flight that a certain pilot wants to make which is not regular, should be requested to the CEO by sending him his respective Flight Plan in order to demonstrate his intentions. If the flight plan is approved, the pilot will be able to make the charter flight.
- When reporting charter, the aircraft to be flown must be chosen for the record and its location recorded.
- The FL indicated on each route should NEVER be used as the end, and it is the pilot's responsibility to know if it is correct or not.
- All flights must be reported through the NOTAM channel on Discord.

DISCORD

- We have a Discord channel for internal communications between VA members.
- Each channel has its function, so please check it on each channel before communicating.
- Specific channels will be opened for internal VA events
